

## **Competent SHE Support (the 'practical' advice)**

Why should you engage our services to provide your business with practical and pragmatic SHE advice and support?

- To meet your legal duty to have competent SHE resource to advise your business.
- It has been proven that good safety makes good business sense.

All of our Associates are chosen because of their passion, competence and experience in providing professional, reliable and effective advice. All have worked with FTSE:100 companies as well as SME businesses, providing services that advise on compliance, enable continuous improvement and enhance SHE reputation.

We believe we have so much more to offer than the traditional SHE consultancy service. We want to build a relationship of mutual trust so that you turn to us whenever you have a question or challenge, or just to provide the reassurance you sometimes need. By building a long-term relationship, we can advise on improvements to your SHE performance which we are convinced will lead to improvements in efficiency and effectiveness and ultimately help you to become the supplier of choice for your clients.

Listed here are some of the services we can provide but please don't hesitate to call us to discuss any of your SHE requirements:

- Risk Management and Risk Assessment.
- SHE management systems, procedures and processes.
- Safe Systems of Work (SSoW).
- CDM.
- Training, coaching and competence.
- Incident Investigation, root cause analysis and recommendations.
- Support to in-house teams.
- Director and Senior Manager coaching.
- Procurement support.
- Assurance and Audit.
- Design support.
